6 CLEAN WATER AND SANITATION

With SDG 6 in mind, our program combines the use of mobile showers with WASH (water, sanitation, and hygiene) education, and Wellness (COVID-19 testing, HEP A/HEP C vaccinations, and illness prevention) services, through strategic partnerships with community service providers and host sites.

STORIES FROM THE FIELD

Destiny Walker

Orange County, FL

Pets provide companionship, love, and a sense of security for their owners. In addition, they help increase self-esteem and confidence and give a sense of purpose. Our furry friend, Destiny, is no exception.

Destiny belongs to one of our shower guests in Orange County, FL. She's excellent with children and brings smiles to our shower guests whenever she's around. Destiny reminds us of the importance of companionship during times of need, and we're happy to have her around.

Chante Baker

Clark County, NV

The health risks of not having access to clean water are often overlooked. For example, Chante is currently recovering from a serious leg injury and relies on our mobile shower services to care for his wound.

Access to a warm shower provides an opportunity for privacy, dignity, and hope. However, for Chante, it also means he has a safe place to treat, clean, and sanitize his injuries, which are crucial for his health and recovery.

We are happy to provide Chante the security and resources he needs to maintain his health and hygiene.

COMMUNITIES WHERE WE SERVE

NEW MOBILE SHOWER LOCATIONS

We are excited to announce the expansion of our Fresh Start WASH & Wellness program in the cities of **Tulare, CA** and **Chula Vista, CA**.

A SPECIAL THANK YOU TO OUR SPONSORS!
